

December 13, 2021

Dear LEA Members and Guests,

On behalf of the LEA Board of Directors, it is my pleasure to invite you to the LEA's 91st Annual Educational Conference back at the Ft. Lauderdale Marriott Harbor Beach Resort in Ft. Lauderdale, FL February 2 - 4, 2022.

As always, it will begin on Wednesday 2nd with our annual LEA golf outing at Jacaranda Golf Club in Plantation Florida.

On Thursday morning, the General Session includes two dynamic keynote speakers and an old favorite. Leading off is Michael Pritula, Managing Director of QualRisk, presenting "*The Changing Role of Claims Professionals in a World Where Data and Analytics is King*". Next, we have Michael Smith SVP and Head of Global claims for Chubb presenting an Insurance Update, General Trends in Insurance Claims: "*Claims and claims handling trends from the perspective of a Senior Claims executive of a major insurance carrier*". Finally, returning is the *2021 Property Law Case Update*. Bill Webster, Elizabeth Burnett, Brandy Worden and Christina Lincoln of Robins Kaplan LLP will update you on the most interesting property insurance case decisions of 2020-2021.

All these topics should prove to be very interesting, informative and generate discussion amongst the audience. Thursday afternoon and Friday morning we are providing a choice of three separate two-hour workshops followed by a choice of three separate one-hour sessions, all of which qualify for Continuing Education credits.

The topics for the two-hour sessions are: *Understanding the Risk, Assessing the Loss and Consideration of Coverage Issues, and Business Interruption Reinstatement Claim, Wildfires and their Impact on Insurance Coverage Issues*. The topics for the one hour sessions are: *Offshore Wind: What Does the Future Hold?, How to Avoid the Pitfalls of Geotechnical Investigations, and a Retrospective Look at Hurricane Ida*.

These presentations will provide a balanced and informative program which we hope you will find entertaining and educational.

There will be Continuing Education credits offered for various states. No partial credit will be given, and attendees must attend the full sessions to receive CE credit for that session. There will be **no** exceptions.

We are extremely pleased to be returning to Ft. Lauderdale. As this will be my last meeting as LEA President, I look forward to seeing everyone again for an educational and successful meeting.

Best Regards,

LEA President

LEA Concurrent Workshops

1:30 – 3:30 pm

2-Hour Sessions

Select One

Workshop 1 (2 Hours)

Understanding the Risk, Assessing the Loss and Consideration of Coverage Issues

This presentation will feature an in-depth analysis of a hypothetical, complex, multi-state bridge and tunnel infrastructure project involving a public-private partnership. Presenters will review the scope of the project, review a significant loss scenario, explore the apparent cause of the loss, consider the likely coverage implications under a complicated and multi-layered builders risk program with policy inconsistencies, and discuss the investigative strategies needed to deal with this complex loss.

Workshop 2 (2 Hours)

Business Interruption Reinstatement Claims

This session will provide insight into issues that often arise on Business Interruption reinstatement projects and explain what is and is not allowable under common policies. Understanding the limit on coverage in policies when insureds reinstate a claim with upgrades and additional works will be discussed. Professionals advising on reinstatement issues need to understand what is allowable under policies and be able to identify common issues that regularly arise.

Workshop 3 (2 Hours)

Wildfires and their Impact on Insurance Coverage Issues

The frequency and severity of wildfires has increased exponentially in recent years. We have all seen the footage of wildfires raging in, for example, the Western United States, Canada, and Australia. Wildfires bring with them a range of insurance-related issues, many of which are complex in nature and difficult to effectively address. We will highlight some of those difficult issues, additional living expense and business interruption issues, and civil authorities and code upgrades.

Workshop 4 (1 Hour)

Offshore Wind: What Does the Future Hold?

The offshore wind panel discussion concerns the movement towards offshore wind and renewable energy and its impacts on various classes of insurance and associated claims. The panel will discuss the current timeline for the installation of offshore wind throughout the waters of the United States, the types of turbines which may be installed, and will provide horizon scanning of future impacts of same based on the events experienced from offshore wind installations in other parts of the world. The panel will consist of an offshore wind insurance claims handler, an attorney who has worked with wind and loss adjusters with experience in wind claims.

This session will further discuss the impacts of offshore wind not only concerning the energy and renewables insurance markets but also property, casualty, liability, marine, cargo, builders' risk, business interruption, debt protection insurance, and professional liability lines.

Participants Adam Humphrey, CEO
Global Risk Solutions International

Tom Upton, Claims Manager – Energy, Liability & Terrorism
Markel International

Matt Jett, Esq., Shareholder
Hall Maines Lugin, P.C.

Workshop 5 (1 Hour)

How to Avoid the Pitfalls of Geotechnical Investigations

Geological and geotechnical investigations of losses may utilize common and established methods for sampling, testing and analysis, but they have limitations. To mitigate the pitfalls from the inherent limitations requires a holistic approach to the investigation which must be integrated with the overall adjustment process. An investigation executed as a parallel activity, or a conventional supplier service will struggle to meet the expectations of

the stakeholders. The workshop will explain how an adjuster can recognize if an investigation is appropriate to a loss and what the reasonable expectations are.

The workshop will define the essential components of a geotechnical investigation of a loss, so the group is familiar with the terminology and tools.

Speaker Christopher Snee, Forensic Geologist
Sneegeoconsult

Participant Jose Mogartoff, ARM, AIC, Director of Energy & Marine Claims
Zurich North America

Workshop 6 (1 Hour)

Retrospective Look at Hurricane Ida

In a time of ever-increasing natural catastrophes, this session will examine the myriad of issues surrounding the premier Hurricane event of 2021. The uniqueness of this event and the logistical challenges faced by the insurance professional community will be explored. Pre-loss company activities with the purpose of evaluating potential loss exposure will be discussed. We will also look at loss measurement issues in specifically as they relate to Time Element coverages. Come prepare yourself for the next Hurricane Event.
